Elevator Spare Parts

We offer elevator spare parts which are made using high grade components in metallic and non-metallic types. These components provide best functioning when installed in the right way. Some general application areas of these accessories are airports, commercial sector, industrial areas, malls, offices, retail stores, shopping centers and underground stations. Made from cutting-edge technologies, these are well known for their robustness. Further, these Elevator Spare Parts are designed according to the set industrial standards and are demanded by prestigious customers. These have accurate dimensions and are compatible with all brands of elevators. They are simple to install and do not require daily upkeep.

Key FEATURES:

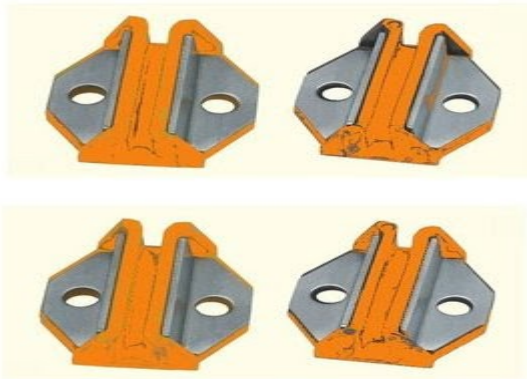

- Low maintenance and repair work required
- Robust construction ensures to provide working for a long time
- Anti-corrosive nature of these parts ensures high durability
- Dimensional accuracy for best fittings in manufacturing the elevator

Guide Shoes 9mm & 16mm

We are the leading manufacturer, exporter and supplier of an excellent quality Guide Shoes 9mm & 16mm. Offered spare part is considered very reliable and is used widely for the elevator's installation and functioning. The spare part offered by us is manufactured using the best quality material and undergoes strict quality checks to ensure its fine finish.

5mm Guide Shoe of 4 Sets

We are the leading manufacturer, exporter and supplier of an excellent quality 5mm Guide Shoes Set of 4 . Offered spare part is considered very reliable and is used widely for the elevator's installation and functioning. The spare part offered by us is manufactured using the best quality material and undergoes strict quality checks to ensure its fine finish.

Products Features:

-
- Dimensional accuracy
- High tensile strength
- Robust manufacturing
-

Diverter Pulley With Shaft & Bracket

Since our commencement in the year 2002, we have been engaged in manufacturing, exporting and supplying the finest quality range of Diverter Pulley Shaft. This pulley is manufactured at our technically-advanced production unit by utilizing quality tested raw materials and sophisticated technology. The provided pulley is perfect for a linear or rotational system of motion to transmit rotational motion for redirecting the applied force

and helps in lifting objects. Further, this Diverter Pulley Shaft can be availed by our valuable clients in comprehensive specifications as per clients needs at pocket friendly prices.

Key Features:

- Accurate dimension
- Smooth finish
- Excellent strength
- High load demeanor capacity

Elevators Rope Attachment

We are considered as the most trusted name in the industry, affianced in offering a wide range of Elevators Rope Attachment. Our attachment is highly durable and is used extensively in the elevator's installation. Provided with preside gripping, this attachment is able to hold the rope strongly. As a market leader, we manufacture this Elevators Rope Attachment in various specifications at market leading price.

Products Features:

- Sturdy design
- Rust proof
- High tolerance capacity

Over Speed Governor

Backed by the team of experienced professionals, we are able to offer an extensive range of Over Speed Governor that is mainly designed for elevators. This product is manufactured by our experts using quality tested material with the help of cutting-edge technology. Manufactured as per the set industry standards, this product is used to limit the top speed of elevators. Our valuable clients can avail this Over Speed Governor Dia-300 from us at market leading price.

Key Features:

- Excellent performance
- Sturdy construction
- Flawless mechanism

Rope Tensioner

Since our inception in the year 2002, we have successfully been engaged in providing high quality range of Rope Tensioner. This tensioner is chiefly used in camping, mountaineering and backpacking purposes. Under the stern supervision of our deft professionals, the offered tensioner is manufactured with the help of ultra-modern techniques by utilizing premium quality raw materials. In addition, our clients can avail this Rope Tensioner from us in distinct specifications at nominal prices.

Key Features:

- Sturdy construction
- Easy to fit

- Impact resistance
- Dimensional stability

Safety / Clutch Gear Single Roll 9mm & 16mm

We are engaged in the manufacturing, exporting and supplying an extensive range of Safety / Clutch Gear Single Roll 9mm & 16mm. With attractive rates & Quality.

Safety / Clutch Double Roll 9mm & 16mm Safety Gear

We are engaged in the manufacturing, exporting and supplying an extensive range of Safety / Clutch Double Roll 9mm & 16mm Safety Gear With attractive rates & Quality.

Rubber Buffer & Spring

Being one of the prominent manufacturers, exporters and suppliers of this domain, we bring forth premium quality **Rubber Buffer & Spring** for our clients. Offered product is highly appreciated by the clients and is widely used in the elevator's installation. We utilize premium quality rubber and advanced manufacturing techniques to manufacture this **Rubber Buffer & Spring**. Available in different specifications, this product is manufactured as per the standards set by the industry. Our clients can avail this product from us at very nominal price.

Key Features:

- Robust manufacturing
- Flawless finish
- Precise dimension

Rubber for Machine Bed

We are considered as a prominent face of this domain engaged in manufacturing, exporting and supplying Rubber for Machine Bed. Known for its durability and reliability, this product is used as a platform for installing any heavy machine, in order to reduce the mechanical vibrations. We manufacture this product in accordance to the international quality guidelines using the best quality raw material and high-end technology. We offer this range of Rubber for Machine Bed in different dimensions and specifications at pocket friendly price.

Key Features:

-
- High durability

- Robust manufacturing
- Temperature resistance

Rubber For Cabin

With the assistance of our dedicated team of experts, we are engaged in offering outstanding quality **Rubber For Cabin**. This product is manufactured by utilizing high quality rubber and advanced techniques in our advanced production unit. The provided rubber is widely used in various machines for different applications. Moreover, our valuable clients can avail this Rubber Lagging Pulley in several packaging options at nominal prices.

Key Features:

- Sturdiness
- High durability
- Perfect finish
- Crack resistance
